Third Party Inspection

QUEST Consulting offers third-party inspection services and has various registrations with internationally recognized entities, trade associations and professional societies. QUEST Consulting's deliverables reflect unbiased statement of fact reporting and confirms verification and inspection services to one or more internationally recognized codes, standards, design specifications and specific technical project requirements.

Our source inspection services at supplier and vendor sites for manufacturers, owners and other shareholders verify that the equipment or goods have been manufactured in accordance with a client's specifications and other applicable quality system requirements as specified.

Source inspections are tailored to meet a specific need and may include:

- Review of material test reports
- Witnessing mechanical tests, factory acceptance tests and hydrostatic and performance tests
- Witnessing welder's performance qualifications
- Witnessing NDE and performing visual examinations
- Review of weld procedure specifications and procedure qualifications
- Examination of edge preparation, fit-up and dimensional attributes
- Inspection of BQ Plates, Pipes, Tubes, Forgings, Casting and Gaskets
- Inspection of Pressure Vessels, Heat Exchangers, Columns & Bullets
- Inspection of Valves
- Inspection of Glass lined, Rubber lined & PTFE lined Equipments
- FRP Equipments
- Inspection of coatings
- Verification of quantities shipped, including proper packing and identification marking

Technical Man Power Supply

Quest has been a major provider for Technical Man power supply, for Oil and gas, and petrochemical industries in around India.

We have technical experts in all the field who can be outsourced in short and long term basis to carry out your work , which will largely reduce the hassle of hiring and training the employees as our employees are well trained and competent and meeting up to the client requirement.

We have experienced and certified professional for the following discipline

Inspection Department:

- ✦ Welding
- ✦ Structural
- ✦ Piping
- ✦ Pressure Vessel
- ✦ Painting
- ✦ NDT
- ✦ Fabrication
- ✦ E & I
- ✦ In-service – API 510,570,580,653
